Verse 1: Go find the man
That placed the crown of thorns on me
I have a crown for him above
And it shall have no thorns
It's made of gold fit for a king
If he will accept my gift of love

Verse 2: Go find the soldier
That thrust the spear deep in my side
So close to my heart it came
But there's a nearer way,
Into my heart that broke and died
If only his lips confess my name

Chorus: Go find the man - That made me bear that cross
I want to make his burden light
Go find the man - That cursed me to my face
I want to bless his barren life
And go find the man - Whose hammer drove the nails
Thru my feet and thru my hands
Tell him that these scars - Can heal his hurting heart
Go for me and find the man

Verse 3: Go into all the world
You will find him everywhere
The man whose sin I took that day
But he is no longer guilty
Of the sin that brought me there
If only he sees I am the way.
