

## Weddings At Our Firey Trails Venue

*Policy Dated February 1, 2026*

We are asked about weddings at Firey Trails quite often. So we thought we'd compose a standard response for right now in 2026. Yes we have hosted several simple country style weddings thru the years as recently as last year. Although some weddings can be simple, others require different levels of decor, pageantry, ceremony layout, rehearsals, dining with banquet tables, photography staging, dressing rooms, etc. (I'm sure even this list is not complete.) Over the next few years, we hope to be able to develop the many types of events we already offer...which now even includes

Celebrations of Life events. One of these future developments is going to be a wedding subsidiary called Wood Creek Weddings. ( [woodcreekweddings.com](http://woodcreekweddings.com) ) that will be operated by our daughter Angela Firey-Stewart. Within the next few years, she is hoping to be in a position to develop the Wood Creek Wedding Venue at Firey Trails. Wood Creek Weddings will be offering more complex weddings in future years on our Firey Trails grounds but we don't have time nor desire in our current busy schedule to entertain such WCW notions now. And currently, we want to remain very low key on offering weddings until we can give it our full attention as Wood Creek Weddings. That is why only this PDF hidden on our [fireytrails.com](http://fireytrails.com) site is the extent of our advertising them. And when we list a "wedding" on our calendar, we list only Bride and Groom's first name celebration. *Example: John & Jill's Celebration*

**ON WEDDING TOURS** - So for people getting married in future months and would like a tour of our venue and our grounds. The only times now available are all day Monday and sometimes Sunday afternoons because of our busy schedule. But there are other issues on our end in setting up a day and time when you want to come out for a potential wedding ceremony.

1. We are planning upgrades to our facility this Spring (our modern restrooms and a connecting breezeway between our full kitchen and pavilion.) Upgrades wouldn't be properly represented on a present tour for how things will be during your future event.
2. We are not perpetually set up for weddings. So its hard to visualize in January or February-or similar non-event date month- a setting in summer or the Fall. Unlike a traditional venue that specializes in weddings (the only type event they host), we are not tour ready for a non-typical event such as a wedding. Lots of visualizing needs to be done in our case. Plus the grounds may not be mowed between events (in the growing season) and things may not look as spiffy and tour-ready as we have them for an event. **Its very hard to translate a tour at one time into a wedding event setting in a future time.**

3 - In lieu of a tour, we have a website started for Wood Creek Weddings showing actual photos of what was and what can be. Please look up [woodcreekweddings.com](http://woodcreekweddings.com) to look our venue and grounds over and see the beautiful weddings that have been hosted at Firey Trails in the past. Among these are Angela Firey's wedding on October 30, 2021. The link to this chaptered condensed and unlisted video is

So yes, in the meanwhile, we can currently offer a non-typical event like a simple country wedding as long as it falls under the existing basic parameters of a 3 hour event pricing and doesn't get too complex on what is needed or required already for a typical event. A free setup time of an hour is included (so total is 4 hours). But if more time for festivities is needed, the extra time is \$100 per hour. We can even price a simple country wedding as a typical event. But the more customization is needed, we can consider a custom price at that time.

Here is our Firey Trails Rate Chart for your consideration
